The Moment Tony steps on stage you feel he's different.

There's something about him that keeps you coming back again and again.

There's a reason why people say "I need a dose of Tony" or "I need a Tony Pace fix".

What makes the difference is "who he is" and "what he can do".

He's been compared to Sammy Davis and so many others. Most likely, any show you see with Tony is improved and never scripted. He's been hailed as a singer's singer and believes that the gift he was given must be shared. What a gift it is!
